

The Gathering

Mondays and Tuesday evenings

Fall 2008

The Natural Power of Being a Woman – The Gathering is an intense and specific investigation into the natural power that women possess. It opens you up to your intuitive abilities, to the possibility of healing, to the developing of authentic self-expression, to the heart space which is the source of love for yourself and others, and works on resolving your history which in the past worked to limit your natural power.

The purpose of **The Gathering** is to

Bring us in touch with what is truly natural for women

Be in touch with the power that is

Provide practices to permit getting to know those aspects of ourselves

Develop the ability to use them for our own well being and the well being of others

Know ourselves as individuals and as women as we never have before

Know what is good and appropriate for us from a true, inner peace
